

# San Antonio Rose Classic

BEEFMASTER SALE

February 14, 2026 | 10:30 AM

A South Texas Beefmaster Breeders Association Sale

*Featuring The  
Run For the Roses Futurity*

**Beefmaster Rose Classic**  
**February 12-14, 2026**  
**Consignor/Buyer Instructions**

Howdy, Consignors and Buyers.

We are excited to have you back or attending for the first time at the 2026 San Antonio Stock Show & Rodeo. Our show has grown tremendously over the past several years and has created a number of challenges related to traffic and parking. In order to make our best effort to serve you and the tens of thousands of other individuals who attend our show, we have had to make some adjustments to our arrival and parking procedures. Please see the following list that will explain in detail the process you will see at the 2026 Beefmaster Rose Classic. If you have any questions related to the traffic flow or parking, please contact Dr. Brian Faris or Sterling Pieniazek in the Competitive Events Office at 210-225-0575. For all Sale-related questions, please contact Anthony Mihalski at 210-415-0888 or Anthony Mihalski, Jr at 210-415-4530.

**CONSIGNORS/BUYERS (Prior to Sale Day):**

- *ALL Consignors must go through the Gambler Rd. check-in lot and stage before coming to Grounds to unload cattle. Arrival deadline for Sale cattle at SCP is 2 pm on Thursday, February 12<sup>th</sup>. Any trailers arriving directly at Gate E without going through SCP will be turned around and sent to SCP for staging.*
- Please load your trailer so that our volunteers may assist you with unloading feed/tack prior to unloading the cattle.
- Please be efficient in the time it takes to unload your trailers. We want to get everyone's cattle in the barn and settled as efficiently as possible.
- Once your cattle have been unloaded, you will be directed back to the SCP to park and unhook your trailer. You will access a QR code to create an electronic Trailer Release. If you are not the biggest fan of technology, one of our Special Sales volunteers will be happy to help you complete a Trailer Release.
- After you have dropped your trailer, you will then proceed back to Grounds and enter Parking through GATE A (WEST GATE) and park in the designated lot. You will be directed to a designated parking area until that area is full. We will make every effort to provide shuttle carts from the designated Parking Area to the Auction Barn.

**BUYERS (On Sale Day If Leaving Trailer):**

- *ALL Buyers pulling trailers must go to the Salado Creek Property (SCP) and park your trailer before coming to Grounds. You will access a QR code to create an electronic Trailer Release. If you are not the biggest fan of technology, one of our Special Sales volunteers will be happy to help you complete a Trailer Release.*
- After you have dropped your trailer, you will then proceed back to Grounds and enter Parking through GATE A (WEST GATE) and park in the designated lot. You will be directed to a designated parking area until that area is full. We will make every effort to provide shuttle carts from the designated Parking Area to the Auction Barn.
- After the Sale, you may go back to to SCP and pick up your trailer and return to Grounds or if you are just coming in to pick up cattle you will enter through Gate E (PURPLE GATE) and then be directed to the Auction Barn to load your cattle.

We are excited to host you at this year's San Antonio Stock Show & Rodeo. We hope the changes we have had to make create the least amount of inconvenience to you as possible. We will be hosting approximately 15,000 livestock show exhibitors and contestants to our Grounds this year. We look forward to a great 2026 event.

Brian R. Faris, PhD  
Competitive Events Director

Sterling Pieniazek

# *Dear Members and Friends of the South Texas Beefmaster Breeders Association,*

On behalf of the South Texas Beefmaster Breeders Association, I would like to personally thank all of our consignors and supporters who have made the STBBA Rose Classic and Futurity possible. We truly appreciate your commitment to the Beefmaster breed and to this event, and we look forward to showcasing an outstanding set of cattle.

We invite all of our members, buyers, and friends to join us at the San Antonio Stock Show & Rodeo on Friday, February 14, for the STBBA Rose Classic and Futurity. This event continues to grow each year, and we are excited about the quality and depth of cattle that will be offered.

And since it is Valentine's Day... instead of buying flowers that will be gone in a week, come buy Beefmasters that will add value to your program for years to come. Now that's a gift that really lasts.

Whether you are looking to support fellow breeders, add elite genetics to your herd, or simply enjoy a great day around good cattle and good people, we hope you will plan to attend.

Thank you again to our consignors for your trust in this sale and for your continued support of the STBBA. We appreciate each of you and look forward to seeing you in San Antonio on February 14.

Sincerely,

*Philip Walther*

President  
South Texas Beefmaster Breeders Association

# COLVIN BEEFMASTERS

*Building From The Best*

**649/0**

C1133484

CF Troubador x CF 488/6

649/0 combines Troubador and Pinnacle to feature a female with an REA bumping 12 and an impressive \$M index. We have big plans for her in the future here at Colvin Beefmasters.

**284/1**

C1150797

CF Riptide x CF Vivid Oasis

284/1 is a Riptide daughter that combines stout numbers with an attractive phenotype and she is out of Vivid Oasis who has become a mainstay donor in our breed.

# CF CÓDIGO

## PERFORMANCE, CONSISTENCY & THE MATERNAL EDGE

Dream Catcher and Riptide really make a statement here with CF CÓDIGO. Combining these two lines is proving to be the next great combination in Beefmaster genetics. CF CÓDIGO gives you a shot at consistency with big data. He is the top 10% for both \$T and \$M. If you're looking for Performance and Pedigree, look no further than CF CÓDIGO!

SCURRED

This is a good looking, dark red polled/scurred open heifer that is phenotypically correct. MVP2 Trailblazer has been producing excellent calves for me. On the dam's side, Farm & Ranch 993 has produced really nice heifers. I have kept every one of them including this heifer's mom, Pena Farms Daisy 561.

This lone-bodied, high-volume Beefmaster heifer offers extra capacity and dimension. She is a September, 2024 model and is deep-sided and bold through her rib with the kind of length and body that will add longevity and production value to any herd. Backed by a strong maternal pedigree, her sire is a proven producer with influence tracing back to Fusion, and her dam goes back to the legendary Mr. Black Coffee. She is halter broke, has a very gentle disposition and has been shown successfully in two major stock shows. This heifer will prove to be a powerful yet functional female with the look and pedigree to add value to any program.

**POLLED**

MVP Broadway is a smooth-polled front pasture type of heifer that is built right and very docile. Plenty of muscle, bone, length of body and smoothness on this heifer. Heifer is currently being shown until the 2026 Rio Grande Valley Livestock Show in March. If ok with buyer, we will show and feed her until mid-March and delivery after showing. Great EPDs and genetics from some of my best bulls.

	CJ'S GUNSMOKE 66-07
	MISS CJ 09-08

Woolman Farms presents you another deep red heifer with a powerful pedigree, proving that by combining the breed's top performance sires (CF Sugar Britches, L2 Captain Sugar, CF Brock, Infinity and many more) with the breed's proven dams (the legendary Oasis, Miss CJ 99/12 Tinkerbell, Sugar Ann and Sex Life) you can produce a beautifully designed heifer. Southern Sugar is a very feminine, smooth heifer that brings in plenty of muscle and bone and also possesses a very nice disposition. Southern Sugar's dam, cf Southern Bell is one of our top proven donors. Southern Sugar is a full sibling to the high selling animal at the November, 2025 STBBA Extravaganza Sale.

	MISS CJ 09-08

Southern Tide offers pure genetic excellence. She brings in the performance of many of our breed great sires (CF Unico, WB Solution, CF Brock and CF Riptide and many more). Southern Tide's dam, cf Southern Bell (CF Brock X Miss CJ 99/12 Tinkerbell) is one of our top producing donors. Her sire, CF Unico is a proven top herd sire in our breed. All of these great genetics and proven performances shine through on Southern Tide. You can see she offers outstanding bone structure, tremendous muscling and that conformational correctness that we all desire.

TURNER 010		SWB BLACK POWDER 29-09
		TERREO 1217/7

Chocolate with a white underline, polled and solid in her design and profile. This August, 2024 model female is just now in the beginning phases of her production. She sells A.I.'d on 11-24-25 to a Hans Wittenburg bull, Brocks Brick, C 1121741, which has been proving to produce high-quality calves. We admire this female's depth of rib, body capacity, extreme volume and her very strong maternal and feminine look. She is the great-great granddaughter of Fredia 515 who was a proven donor originally raised by a long-time breeder Sam Turner.

2G Dusty Britches has all the qualities that we love to see in classic Beefmaster beauties. Stout featured from the ground up, this absolutely gorgeous female still flawlessly blends a beautiful front end, extreme angulation, and perfect color in a package destined for someone's ET program. She is not only a direct daughter of breed legend, Sugar Britches, but also the first female to sell out of WB Dusty's Beauty, an incredible young donor in our ET program who may be as close to phenotypically perfect as any female we own. As icing on the cake, she will sell 6 months safe to CF Industry, C1149962. Conceived 1st AI on 8-7-25.

# Terms and Conditions

**BIDDING:** Each animal will be sold to the highest bidder without reserve.

**BIDDING DISPUTE:** The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.

**CASH SALE:** All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, Section 10 of the BBU Bylaws.

**BUYER'S RISK AT THE TIME OF SALE:** The risk of loss and injury of each animal passes to the buyer as soon as it is sold; however, it is the obligation of the seller to ensure that sold animals are fed and cared for free of charge to the buyer until loaded for shipment.

**CERTIFICATES OF REGISTRATION:** A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within **45 days** following the later of either the date of sale or upon the receipt of full payment.

**HEALTH GUARANTEES:** Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

**ANNOUNCEMENTS:** If there is any inconsistency in information in terms of the sales materials (e.g. sale catalog, supplemental sheets, sale day announcements, 1) sale day announcements will control over both the supplement sheet and the sale catalog, and 2) the supplement sheet will control over the sale catalog.

**IDENTIFICATION RESPONSIBILITIES:** 1) Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (tattoo, hot-iron brand or freeze brand) corresponding to its registration identification and 2) The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies to the seller immediately.

**ARTIFICIAL INSEMINATION (AI) CERTIFICATES AND EMBRYO TRANSFER (ET) BILLS OF SALE:** AI certificates and ET bills of sale will be the responsibility of the seller.

**CONFORMANCE WITH REGISTRATION GUARANTEES:** 1) The seller guarantees that all sold animals are registered in accordance with the rules of BBU and 2) The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of BBU.

**OFFICIAL BBU INFORMATION:** All existing available official BBU information, including calf source, service sire and/or potential service sires (registration numbers) and performance data must be included in the final sales catalog.

**PEDIGREE, PERFORMANCE AND GENETIC INFORMATION GUARANTEES:** The seller guarantees to the buyer that: 1) the pedigree, performance data and genetic information, as represented in any sales materials (including sale catalog, supplemental sheet or sale day announcement), are accurate; and, 2) all information from the BBU database is accompanied by an accurately stated "as of" date. The absence in any sales materials of a specific designation on the pedigree of an animal does not establish that the animal in question is not a carrier of such genetic defect.

**BREEDING GUARANTEES:**

1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to gross negligence by or willful misconduct on the part of the buyer.

2) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. Results of the BSE must be reported on a fully completed official form and attached to the health papers required for the sale.

3) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after sellers notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. **Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.**

4) Females younger than twenty-four (24) months of age can be sold as open. Females sold as open are guaranteed by seller to be open. Any female is considered a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side with no further fertility guarantee. Cows (including donor cows) with calves at side six (6) months or older must be certified to be pregnant by a licensed veterinarian.

5) "Safe-in-calf" females are guaranteed by the seller to have been examined by a competent veterinarian or reproductive technician and determined to be safe-in-calf by examination or other proven method (e.g., ultrasound, pregnancy blood tests, and rectal palpation). "Served" females are not guaranteed to be in calf. "Exposed" females have been exposed but are not guaranteed to be in calf. "Open" females are guaranteed by the seller to be without calf.

6) A Donor female (unless otherwise agreed by the buyer and the seller) is a female: (a) that has been used in an embryo transfer program and shall not be guaranteed to be a breeder after the date of the sale, (b) that is not guaranteed to be a breeder after the date of the sale, when that female is to be used, or attempted to be used, in an embryo transfer program.

7) The seller makes the following guarantees with respect to all "pregnant recipients": (a) that the female is pregnant, (b) that the resulting calf is of the pedigree represented, and (c) that the resulting calf is of the sex represented (if so represented).

**FLUSHES AND TIME REQUIREMENTS:** A flush consists of all viable embryos, transferred or frozen, received from a female as the result of the administration of any super ovulation drug. The sale of a flush or resulting pregnancies must specify in the sale catalog the number of pregnancies guaranteed by seller and the disposition of any other pregnancies resulting from the flush, the disposition of any frozen embryos resulting from the flush and any additional charge for the recipient cows. The maximum time for the delivery of the guaranteed results must be specified along with a payment schedule. Non-delivery or only partial delivery by the specified time by the seller will result in a pro-rata refund of all monies paid by the buyer for such flush or pregnancies not delivered.

**DISCLOSURE OF PRIOR PROCEDURES:** The seller must disclose in the catalog or from the block any circumcision or other surgical alteration of any underline of any male or female known to the seller and of any single egg or super-ovulation flush of any female known to the seller.

**SEmen:** Unless otherwise agreed by the buyer and the seller (with respect to the sale of semen), the seller makes no guarantees with respect to the performance or characteristics of such semen and the buyer is purchasing such semen "as is".

**EMBRYOS:** Embryos being offered for sale will be sold "as is" unless the seller provides additional guarantees.

**CLONES:** Only BBU replication cell-cloned animals shall be eligible for registration and eligible to sell. Genetically modified animals shall not be eligible for registration and cannot sell. Cloned animals shall be guaranteed by the seller to be breeders under the same terms of the agreement for females and bulls. Any additional guarantees with respect to clones shall be by separate agreement between buyer and seller.

**NO SEX GUARANTEES:** There are no representations as to the sex of offspring unless the seller makes a specific guarantee that offspring will be of a particular sex.

**DISCLOSURE OR RETENTION OF GENETIC MATERIALS:** If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

**PRIVILEGES OF RETURN OR ADJUSTMENT OPTIONS:**

1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.

2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4) If a female sold as "safe in calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be in writing to the seller within 180 days of the sale of the animal in question.

5) If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be in writing to the seller within 180 days of the birth of the calf.

6) If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. Seller is responsible for all transportation expenses.

7) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.

8) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.

9) If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.

10) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

**GENETIC DEFECTS AND FACTORS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL:**

1) In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by BBU) as a carrier of any genetic defect or genetic factor recognized by BBU.

2) The seller guarantees that a bred female will not produce a calf with an inherited deformity occurring in Bovine for a period of nine months following date of sale.

**MISCELLANEOUS:**

1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.

2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Suggested Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Sales Terms and Conditions.

3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.

4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.

5) UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.
